1. Conflict of interest declarations

No conflicts of interest have been declared today.

2. Approve minutes from March meeting

The minutes from the March Trust meeting were approved and will be posted on the Trust website.

3. ICANN Update

No update since the last meeting; Brad Biddle will hopefully have something soon.

4. Domain registrations

It was recently discovered that Ray Pelletier was still listed as the contact person for some IETF domains with Network Solutions. The contact has now been changed to Jay, with AMS's address. There should be no maintenance work ongoing for this, but Glenn will write up some kind of agreement with Jay about how to approach any future emergent issues.
